INTENSE PULSE LIGHT HAIR REMOVAL

IPL is an FDA approved therapy for permanent hair reduction.

Treatments are fast, hygienic and do not require numbing creams. Limited sun exposure prior to consultations is required to provide proper skin color analysis.

Treatment duration is determined on an individual basis.

“It is just amazing that I don’t have to ever think about having to shave my legs or underarms ever again. All of my friends are jealous. They are all planning on getting their own legs and underarms done.”

DONNA, 28

PHOTO REJUVENATION

Photo Rejuvenation is an effective FDA approved for IPL (Intense Pulsed Light) therapy. This treatment series is designed to achieve a flawless skin tone. With IPL technology we are able to effectively treat pigmentation, acne, rosacea and visible redness, surface lines and wrinkles and more.

“The photo rejuvenation treatments have allowed me to be more confident in being me. I don’t feel like I have to hide behind makeup. I have always felt young at heart and now I look it as well.”

Spot Treatment	49	15

BODY SLIMMING

Body slimming is a non-invasive treatment using Ultrasonic Technology (UT). By heating fat cells to a therapeutic temperature, fluid and toxins stored within the cells are released. Released toxins and fluids are then flushed out through the lymphatic system resulting in fat cell reduction in the treatment area. Body slimming UT is an effective treatment on both the body and face.

“I’m still in shock. I lost inches. At first I was nervous but after my first treatment, I discovered how easy it was to just lay there and let the machine do the work.”

WENDY, 38

SKIN TIGHTENING

Skin Tightening is a series of Radio Frequency (RF) energy treatments used to constrict the skins outer layers resulting in a tightening effect. RF treatment can be performed on both face and body and is an amazing non-invasive procedure causing surface lines, deep set wrinkles and stretch marks to disappear.

SKIN THERAPY CONSULTATION

Skin Therapy Consultation is tailored to educate you on your skin's quality and specific conditions. This service includes a discussion and analysis of your skin with one of our professionally trained and experienced skin care clinicians who, upon conclusion of the examination, will recommend possible treatment options.

The cost of an STC consultation is redeemable with a clinical treatment when booked within four weeks of the consultation.

\$ 49 🕒 30
